ABOUT ME

An experienced System Software Developer with a demonstrated history of working in the program development industry (MIS, EMR, ERP...). Skilled in PHP, jQuery, Program Development, JavaScript, and C#. Strong system analyst professional with a Bachelor's degree focused in Computer Science from Kogi State University (Best departmental graduating student). On personality, well, picture a phlegmatic :-). I am very open-minded, I don't give up easily, I am very determined and dedicated to whatever I set my mind to. A die-hard FIFA lover. Also a die-hard music lover(A keyboardist and a bass player), all to mention but a few. Above all, a lover of God!

WORK EXPERIENCE

VOLUNTEERING

Living Hope Foundation

[Abuja, Nigeria, 08/06/2020 – Current]

I interview beneficiaries after each outreach to get reviews on their satisfaction rate and ways to improve the quality of our services.

I assist the President in drafting out activities/Order of Program for any of the Foundation's outreaches also in determining what specific palliative is most needed in specific locations

I give speeches to beneficiaries of different outreaches prior to distribution of palliatives
